

Restoring Fluid Balance. Transforming Care.

Nuwellis, Inc. Reports Inducement Grants Under Nasdaq Listing Rule 5635(c)(4)

May 22, 2023

MINNEAPOLIS, May 22, 2023 (GLOBE NEWSWIRE) -- Nuwellis, Inc. (Nasdaq: NUWE) today announced that, effective May 19, 2023, the Company's independent directors approved equity awards under Nuwellis' 2021 Inducement Plan, as material inducements to five individuals entering into employment with the Company. The equity awards were approved in accordance with Nasdaq Listing Rule 5635(c)(4), which also requires a public announcement of equity awards that are not made under a stockholder-approved equity plan.

In connection with entering into employment with Nuwellis, Inc., the individuals, who were not previously employees or directors of Nuwellis, received options to purchase an aggregate of 1,103 shares of the Company's common stock. 720 of the options have an exercise price of \$3.02 per share, the closing price of Nuwellis' common stock on May 19, 2023, the effective date of those grants. 383 of the options have an exercise price of \$2.87 per share, the closing price of Nuwellis' common stock on May 22, 2023, the effective date of that grant. The options have a ten-year term and vest over a period of four years, with 25% vesting one year after the date of grant and the remaining 75% vesting in 36 approximately equal monthly increments, provided the new hire's employment is continuing on each such date, subject to acceleration or forfeiture upon the occurrence of certain events as set forth in the new hire's option agreement.

About Nuwellis

Nuwellis, Inc. (Nasdaq: NUWE) is a medical technology company dedicated to transforming the lives of patients suffering from fluid overload through science, collaboration, and innovation. The Company is focused on commercializing the Aquadex SmartFlow® system for ultrafiltration therapy. Nuwellis is headquartered in Minneapolis, with a wholly owned subsidiary in Ireland. For more information, visit www.nuwellis.com or visit us on [LinkedIn](#) and [Twitter](#).

About the Aquadex SmartFlow System

The Aquadex SmartFlow system delivers clinically proven therapy using a simple, flexible and smart method of removing excess fluid from patients suffering from hypervolemia (fluid overload). The Aquadex SmartFlow system is indicated for temporary (up to 8 hours) or extended (longer than 8 hours in patients who require hospitalization) use in adult and pediatric patients weighing 20 kg or more whose fluid overload is unresponsive to medical management, including diuretics. All treatments must be administered by a health care provider, within an outpatient or inpatient clinical setting, under physician prescription, both having received training in extracorporeal therapies.
